

# THINKING VERIZON? THINK BETTER VALUE. THINK TPO MOBILE.

For those of you thinking of choosing Verizon as your mobile carrier—you may be missing out on better value.

TPO Mobile offers the best-in-country CDMA phone service for only a fraction of the price. We've had a look at what Verizon customers are paying for what they get, and one thing is painfully clear: a switch to TPO Mobile is long overdue.

Take a look...

## TPO MOBILE vs VERIZON

TPO wins! So why pay more?

## STILL NOT SURE?

See what our customers have to say about us:

"TPO's service has always been great. Anytime I've called customer services, everyone has been very kind and helpful—no hidden taxes and fees, very upfront and transparent about billing. I have ZERO complaints, and only good things to say about TPO."

- Taylor Cash, TPO Customer

"My experience with TPO is amazing! When I first came to America I was trying to find a good and affordable mobile network because I'm a student. After lots of searching, I finally found a good deal from TPO and decided to try it out. It caught my attention when I saw that there's a \$5 discount if I enable auto-pay. The best part is that 10% of my bill will go to any charitable cause I pick. I'm pleased to know that by paying my phone bills, I get to help others too. It may not be a huge amount, but if millions of people do the same to help the needy, there will be a huge change! Hopefully we'll be encouraged by each other to do the same to help out little by little, genuinely."

- Zhen Yew Wung, TPO Customer

If you're going mobile, you're better off with TPO Mobile. Whether you're on Verizon already, or looking for a great value prepaid mobile plan, TPO Mobile is ready to have you. Choose a prepaid mobile plan that lets you switch, save, and support.
